

Friday 21st December

Dear Parent/Carer,

I can't quite believe that it has been a whole term already we have packed in so much into the last 16 weeks.

We have completed our first learning cycle and reports were sent home in November. We have also circulated the timetable for our second assessment cycle which starts on 21st January. We have added this schedule to our website along with any letters to parents under the letters section. Can we remind students to ensure that revision continues during the Christmas Holiday.

This year we've had a range of activities and speakers; our Year 9 students have visited the Eden project and Year 9 and 10 students have been to Macbeth at the Theatre Royal to the Plymouth Raiders play. They have had visits from operating theatre practitioners, occupational therapists, dental students, allied health professionals and many, many more. To keep up with the range of speakers and activities at Scott College do have a look at our Facebook page 'Scott College Plymouth' or followers on Twitter @Scottcollegeply

I want to thank you for the support we have enjoyed from parents and carers this term and also for all of the cards and kind wishes we have received from students and their parents over the festive season.

We hope you have a very good Christmas break and we look forward to seeing students back in school at 9am on Monday the 7th January 2019.

Yours faithfully,

Mr Morris
Head of Year 10

Dr Howard
Head of Year 9
